

PD3™ Tapered Plate Dowel Cradles

Now fitted with the RynoBar™ Travel Bar System

Saves time on site!
Faster set-up
& installation.

PD3™ Tapered
Plate Dowel Cradles.
Now with **RYNOBAR™**
DANLEY

The RynoBar™ is a patented, plastic Travel Bar designed with a yield point of <math><1\text{kN}</math> in early concrete shrinkage, which eliminates the need to cut travel bars.

RynoBar™ is compatible with the full range of Danley™ PD3™ Cradles: 6mm, 10mm & 20mm

Improved Safety

Eliminates the sharp edges on steel travel bars.

Faster set up & Installation

Save time and effort on site!
Say goodbye to cutting traditional steel travel bars.

Quality Assurance

RynoBar is engineered to accurately yield at the saw cut joint.
